December 2021

December 2021 President's Message

I pray everyone had a wonderful Holiday! May this new year bring all orchid lovers health, joy, love of family, peace, and a wealth of happy orchids.

Last month, I regretfully had to miss our Holiday Plant Exchange, although I participated virtually. However, I heard all good thing and was happy to hear that members had a good time. Thank you to Luanne and Rachel for organizing such a lovely evening.

Not much to report this month BUT... for those who are starving for adding to your collection, there are many Orchid Shows and Sales coming up over the next few months. With the Omicron variant lingering around, things may not be the same as we remember, but you can trust that planning is in the works (You can find more details, including dates and times, in the pages ahead).

Speaking of which, we are going to be having a virtual culture class on January 5th. William Stender will be our guest speaker, via zoom, talking on "Prepping Orchids for Summer Outdoors." I am sure this is a topic that will resonate with many of us. The February meeting features Kristen Uthus, another excellent speaker. Stay tuned for future topics.

I wish to thank all of you for joining our meetings, please know that there is are many of us behind the scenes trying to keep you safe and engaged. We have an amazing membership and Board of Directors!

Here's to a great 2022! Thank you and stay safe everyone,
Jaymie

Angraceum eburneum ssp. *superbum*. CCM

Importing Orchids Or Just Curious?

Here is something interesting. We, most likely all of us, don't do much importing but there are interesting problems that are associated with bring plants from the Southern Hemisphere to the Northern Hemisphere. We probably never thought about these issues. But it's always good to learn about orchid growth. As always, Fred is very interesting.

How to Import Orchids - Conversation with Fred Clarke of Sunset Valley Orchids

Fred Clarke and I discuss the best techniques for importing Catasetums and Cattleya into North America from the southern hemisphere
